Nationwide Internet Disruption December 2020 Service To be restored later today

The Authority wishes to advise that Internet connectivity to several service providers has been disrupted. There has been a disruption of the international cable link via Curaçao. It is an island-wide problem, however; the source of the disruption has been identified and work to restore connectivity is ongoing.

We have received confirmation that full service will be restored later today.

We also wish to advise that the Media notice bearing the Authority's logo on an internet outage is old news from 2015 and should be disregarded.
