Media Release

TATT signs MoU with the United States FCC

In recognition of the importance of cooperation and the desire to promote bilateral cooperation on telecommunications policy and regulation, the United States Federal Communications Commission (FCC) and the Telecommunications Authority of Trinidad and Tobago (TATT) signed a memorandum of understanding (MoU) on Thursday, 18th June 2026.

The purpose of the MoU is to strengthen the relationship between the FCC and TATT and to increase engagement on regulatory policy between these two regulators.

Considering the important role that these regulatory bodies play in their respective countries in promoting the development of telecommunications, competitive markets, technological innovation, and closing the digital divide, this MoU allows TATT and the FCC to establish a non-binding framework for the mutually beneficial exchange of ideas in telecommunications regulatory policy, to contribute to the development of advanced communications in their respective countries.

Through this MoU, TATT and the FCC intend to share information on telecommunications, broadcasting, and related facilities/services, in accordance with their respective national laws, regulations, and international obligations, and within the limits of their respective mandates. Identified areas of mutual interest include spectrum management, licensing, regulatory issues, broadband connectivity, infrastructure deployment and emerging trends in telecommunications, including 5G.

Both parties welcomed this MoU in the spirit of mutual benefit and institutional cooperation. The MoU is for a period of three years.

For further information, please contact Ms. Sherry McMillan, Executive Officer, Corporate Communications at 675-8288 ext. 368; 778 8095 or at smcmillan@tatt.org.tt.
